

Ilun 2023 is the latest creation of Gorka Izagirre winery, our red wine.

Made entirely from the little-known Hondarrabi Beltza variety, it stands out for its freshness, uniqueness and pure Atlantic character. ILUN, which in Basque means 'dark' and 'god of the night', takes us to a little-known part of the world of txakoli, to a place that was forgotten, and that is gradually taking its place again. It is perfect for tasting with cold meat, white meat and fish. This is a wine that will surely surprise you.

Tasting Notes: The color represents a *bigarreau* cherry combined with a beautiful hue of purple. It opens with high aromatic intensity, immediately revealing the hallmark characteristics of its grape variety and Atlantic origin. Herbaceous notes are seamlessly wrapped in vibrant red fruit aromas, such as redcurrant and raspberry, accented by elegant savory and spicy nuances. The wine enters the palate gently, unfolding into a smooth, velvety texture. The mouth, well-balanced, is filled with red fruit and herbaceous flavors with a fresh balsamic finish. A very easy drinking wine with structure, but subtle very subtle tannins that invites you to have the next glass.

Type of Wine: Txakoli Beltza

Vineyard: Astoreka

Vineyard surface: 1.5 hectare

Varieties: 100% Hondarrabi Beltza

Planting year: 2003
